

6-8 Foot Skirted  
Table

## sketch NOTES

### AUDIO:

- Minimum SURE 58
  - Stereo DI for I-pod
  - please provide Mini to 2 quarter" for I-pod (artist provides iPod & iPod holder which clips to mic stand)
  - two professional wedges - one mix
  - Front of house must be high end (no Eons on sticks)
  - piano must be reinforced, Nord Stage or Roland G series acceptable substitute for piano
- TIPS:
- Engineer should only include basic simple reverb. No Delay effects
  - understanding the words is priority over music throughout show
  - monitor mix should be heavier backtracks and less vocals versus what performers usually prefer

### VIDEO:

- Image magnification must be provided. Ideal placement should be to either side of Stage without obstruction
- projection should have switch to PowerPoint. Artist will provide USB hard drive. Client to provide computer and wireless remote (clicker)

### TIPS:

- Image should focus from Performers hips to head throughout. However, focus tight on face only when facial exercises and comedy require

### LIGHTING:

- professional Stage Lighting required. Light must focus on performer AND stay off of any projection. Basic bright Amber wash is sufficient
