KEYNOTE SPEAKER INTRODUCTION

JASON HEWLETT

Head To Heart

It is our pleasure to present, as our Keynote Speaker today, Jason Hewlett.

What do the high school dance, a business conference networking session, and approaching a potential new client have in common? Other than being awkward, often forced, and making us sweat, it is in these moments we find out how courageous we really are. Leadership demands us to be brave, to not sit idly by, to get out of a place of fear and doubt and enter the place in our hearts where we are made to change our own world. Get ready to laugh, enjoy music, in a presentation unlike any you've experienced before.

Jason Hewlett addresses corporate leadership, management, and the front lines of the workforce throughout the world. He is a CSP, Certified Speaking Professional, as recognized by the National Speakers Association and over the past decade has built a multi-million dollar company based upon his talents as a Speaker and Entertainer, in which he has performed with the world-renowned "Legends In Concert" of Las Vegas and over 2,000 private events.

So, let him know you're out there and give him a rousing welcome.....
